

ECO-ENERGY DRYER

LOW PRICE

CALL 781-858-1155

DTP - 11, 18, 23, 28, 36, 45, 60, 80 ECO-ENERGY

The most efficient dryer in the market, with many standard features:

Construction and drum

Construction in grey skinplate, stainless steel look.

Big loading door (opening of 180°).

STAINLESS STEEL DRUM: standard.

SOFT DRY : The new drum perforations make sure the linen is gently handled.

REVERSE ACTION: All models offer the reverse turning of the drum.

SFEX: Integrated Fire Extinguishing System.

FULL SCREEN FILTER: New filter drawer with wide surface

and improved airflow.

ELECTRONIC CONTROL: Easy and intuitive to use, the electronic control offers a complete control of the process.

EFFICIENT DRY : The intelligent humidity sensor offers a precise control of the moisture in the linen. By this system the drying cycle will automatically stop when it reaches the set level of residual moisture.

Cool down : Anti-wrinkle at the end of cycle.

Airflow circuit

AIR RE-CYCLE: Air recovery system for great energy efficiency.

THERMAL INSULATION: The complete circuit of the air-flow has been thermally insulated in order to optimize the energy to heat the air and to maximize the energy efficiency.

FULL FLOW: The range of ECO-ENERGY dryers complements the

DOUBLE FLOW with side and front openings to increase and optimize the airflow circuit, and achieving the most efficient **FULL FLOW**.
